What we have done

AUTONOMIA

- We supported 8 women to face first costs of leaving shelter homes (first rent, moving costs etc..)

RIELABORANDO

- We financed Rielaborando Project for 150 hours of one-to-one tutoring to women searching for jobs (writing CVs, contacts with employers, stages, preparing for interviews, information on local work agencies, etc..)

What we have done

Thanks to your contribution, we have supported Hanna (fantasy name)

Hanna is the mother of a young child. W.R asked for help at our Women Support Center two years ago.

She underwent a painful, difficult but important **personal journey** to get out of domestic violence and free herself and her baby from an abusive husband.

Hanna has managed to find both work and personal stability, as a woman and as a mother.

Your donation was central to **allow her to relocate** to the Council house that Social Services have assigned her. Without your contribution W.R. would have struggled to pay for relocation expenses.

(Special thanks are also due to our tireless volunteer Micaela Nietzsche)

What we have done

Thanks to your contribution, we have supported Sabrina (fantasy name).

Sabrina had to find protection in our womens' shelter, due to the violence that she suffered from her husband, which brought her to a severe state of poverty. Her husband **controlled every movement**, activity, work shift and she felt always in danger. M.S. was forced to quit her job and had no economic resources and could not support herself indipendently.

Your donation was essential to help Sabrina with **basic expenses** when she had to hide at the women's shelter. She has been lately supported by Social Services, but only at a later stage. Not only could Sabrina pay for basic necessities, **she also felt supported by other women**, women she did not know, during a very sensitive time of her life.

Thank you!
